Ministries of Education in Small States-Commonwealth Secretariat 1991
The conventional literature on public administration is dominated by the patterns and concerns of large countries. It does not address the needs of small countries, which have very different organisational and managerial frameworks. For example, what degree of specialisation is possible in a ministry which has only a small group of professional staff? And what are the implications for management of highly personalised societies in which everybody seems to know everybody else? This book presents 14 studies written by people who are actually grappling with the issues about which they write. The book thus has both authenticity and practical value. The book is an amplification of a companion work, and will be of value to academics as well as to administrators and trainers. The companion book is also available from the Commonwealth Secretariat. It is entitled Making Small Practical: The Organisation and Management of Ministries of Education in Small States.

Defending Your Castle- 2014-06-01 A man's home is his castle, or so the saying goes, but could it withstand an attack by Attila and the Huns, Ragnar and the Vikings, Alexander and the Greeks, Genghis Khan and the Mongols, or Tamerlane and the Tartars? Backyard Ballistics author William Gurstelle poses this fascinating question to modern-day garage warriors and shows them how to build an arsenal of ancient artillery and fortifications aimed at withstanding these invading hordes. Each chapter introduces a new bad actor in the history of warfare, details his

conquests, and features weapons and fortifications to defend against him and his minions. Clear step-by-step instructions, diagrams, and photographs show how to build a dozen projects, including "Da Vinci's Catapult," "Carpini's Crossbow," a "Crusader-Proof Moat," "Alexander's Tortoise," and the "Cheval-de-frise." With a strong emphasis on safety, the book also gives tips on troubleshooting, explains the physics behind many of the projects, and shows where to buy the materials. By the time they've reached the last page, at-home defenders everywhere will have succeeded in creating a fully fortified home.
