The Architecture of Michelangelo: A Critical Companion (1989) is the first of a series of volumes on the buildings designed by Michelangelo in Florence, Rome, and the Vatican. The author, James S. Ackerman, draws on a wide range of sources to provide an overview of Michelangelo’s architectural work, including his designs for the Sistine Chapel, the Laurentian Library, and the Vatican Palace. The book includes a detailed examination of Michelangelo’s use of classical antiquity in his architectural designs, as well as his interest in the human body and its proportions. The Architecture of Michelangelo is a comprehensive and scholarly work that has become a standard reference for students and scholars of architecture.

Michelangelo: A Life of the Master (2000) is a biography of Michelangelo that provides a detailed account of his life and work. The author, Charles Sala, draws on a wide range of sources to provide a vivid and engaging portrait of Michelangelo, a man of great talent and enormous personal complexity. Sala’s biography includes a detailed examination of Michelangelo’s relationships with patrons, including the Pope, and his tumultuous personal life, including his relationship with Vittoria Colonna. Sala’s biography is a rich and illuminating account of one of the greatest artists of all time.
