Linguistica e retorica di Dante-Pier Vincenzo Mengaldo 1978 Dante-John Took 2005-10-08 An authoritative and comprehensive intellectual biography of the author of the Divine Comedy For all that has been written about the author of the Divine Comedy, Dante Alighieri (1265-1321) remains the best guide to his own life and work. Dante's writings are therefore never far away in this authoritative and comprehensive intellectual biography, which offers a fresh account of the medieval Florentine poet's life and thought before and after his exile in 1302. Beginning with the very frequent violent circumstances of Dante's life, the book examines his successive works as testimony to the course of his passionate humanity: his lyrical poetry through to the Vita nova as the great work of his first period; the Convivio, De vulgari eloquentia and the poetics of his early years in exile; and the Monarchia and the Commedia as the product of his maturity. Describing as it does a journey of the mind, the book confirms the nature of Dante's undertaking as an exploration of what he himself spoke of as "maturity in the flame of love." The result is an original synthesis of Dante's life and work.

By bringing together different approaches, from literary studies to philosophy and history, from aesthetics to queer studies, from psychoanalysis to linguistics, this volume offers new critical insights on the question of Dante's language, engaging with both the philosophical works characterized by an original project of vulgarization, and the poetic works, which perform a new language in an innovative and self-reflective way. In particular, Dante's Pluralismus explores the rich and complex way in which Dante's linguistic theory and practice both informs and reflects an original configuration of the relationship between authority, knowledge and identity that continues to be fascinated by an ideal of unity but also imbued with a strong element of subjectivity and openness towards multiplicity and modernity.
